- b Ratios of net investment loss and gross/net expenses to average members' capital do not include the impact of expenses and incentive allocations or incentive fees incurred by the underlying Investment Funds.
- c Annualized.
- d The total return is based on the change in value during the period of a theoretical investment made at the beginning of the period. The change in value of a theoretical investment is measured by comparing the aggregate ending value, adjusted for cash flows related to capital subscriptions or withdrawals during the period. Total return for period less than a full year is not annualized.
- e Calculated by subtracting the Fund's liabilities and indebtedness not represented by senior securities from the Fund's total assets and dividing the result by the aggregate amount of the Fund's senior securities representing indebtedness then outstanding. The Fund's senior securities during this time period were comprised only of temporary borrowings made pursuant to secured revolving lines of credit agreements (see Note 5). There were no senior securities payable outstanding at June 30, 2023 or December 31, 2022, 2021, or 2020.

1. Organization

A&Q Long/Short Strategies Fund LLC (the "Fund") was organized as a limited liability company under the laws of Delaware on August 13, 2001 and commenced operations on February 1, 2003. The Fund is registered under the Investment Company Act of 1940, as amended (the "1940 Act"), as a closed-end, non-diversified management investment company. The Fund is commonly referred to as a "fund of funds." Its investment objective is to seek capital appreciation over the long term. The Fund seeks to achieve its investment objective principally through the allocation of assets among a select group of alternative asset managers (the "Investment Managers") and the funds they operate. Investment Managers generally conduct their investment programs through unregistered investment vehicles, such as hedge funds, that have investors other than the Fund, and in other registered investment companies (collectively, the "Investment Funds").

Subject to the requirements of the 1940 Act, the business and affairs of the Fund shall be managed under the direction of the Fund's Board of Directors (the "Board", with an individual member referred to as a "Director"). The Board shall have the right, power and authority, on behalf of the Fund and in its name, to do all things necessary and proper to carry out its duties under the Fund's Limited Liability Company Agreement, as amended and restated from time to time. Each Director shall be vested with the same powers, authority and responsibilities on behalf of the Fund as are customarily vested in each director of a Delaware corporation, and each Director who is not an "interested person" (as defined in the 1940 Act) of the Fund shall be vested with the same powers, authority and responsibilities on behalf of the Fund as are customarily vested in each director of a closed-end management investment company registered under the 1940 Act that is organized as a Delaware corporation who is not an "interested person" of such company. No Director shall have the authority individually to act on behalf of or to bind the Fund except within the scope of such Director's authority as delegated by the Board. The Board may delegate the management of the Fund's day-to-day operations to one or more officers of the Fund or other persons (including, without limitation, UBS Hedge Fund Solutions (as defined below)), subject to the investment objective and policies of the Fund and to the oversight of the Board.

The Board has engaged UBS Hedge Fund Solutions LLC ("UBS Hedge Fund Solutions", the "Adviser" and, when providing services under its Administration Agreement with the Fund, the "Administrator"), a Delaware limited liability company, to provide investment advice regarding the selection of Investment Funds and to be responsible for the day-to-day management of the Fund. The Adviser is a wholly owned subsidiary of UBS Group AG and is registered as an investment adviser under the Investment Advisers Act of 1940, as amended.

Initial and additional applications for interests by eligible investors may be accepted at such times as the Board may determine and are generally accepted monthly. The Board reserves the right to reject any application for interests in the Fund.

Notes to Financial Statements (continued) (Unaudited)

June 30, 2023

1. Organization (continued)

The Fund from time to time may offer to repurchase interests pursuant to written tenders to members (the "Members"). These repurchases will be made at such times and on such terms as may be determined by the Board, in its complete and exclusive discretion. The Adviser expects that generally it will recommend to the Board that the Fund offer to repurchase interests from Members on a quarterly basis. Members can only transfer or assign their membership interests or a portion thereof (i) by operation of law pursuant to the death, bankruptcy, insolvency or dissolution of a Member, or (ii) with the written approval of the Board, which may be withheld in the Board's sole and absolute discretion. Such transfers may be made even if the balance of the capital account to such transferee is equal to or less than the transferor's initial capital contribution.

The Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") is the exclusive reference of authoritative US generally accepted accounting principles ("US GAAP") recognized by the FASB to be applied by non-governmental entities. The Fund's financial statements are prepared in accordance with US GAAP.

The Adviser has determined that the Fund is an investment company as outlined in the FASB Accounting Standards Update No. 2013-08, *Financial Services - Investment Companies (Topic 946) - Amendments to the Scope, Measurement and Disclosure Requirements* ("ASU 2013-08"). Therefore, the Fund follows the accounting and reporting guidance for investment companies.

2. Significant Accounting Policies

a. Portfolio Valuation

The Fund values its investments at fair value, in accordance with US GAAP, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The Fund uses net asset value ("NAV") as its measure of fair value of an investment in an investee when (i) the Fund's investment does not have a readily determinable fair value and (ii) the NAV of the Investment Fund is calculated in a manner consistent with the measurement principles of investment company accounting, including measurement of the underlying investments at fair value. In evaluating the level at which the fair value measurement of the Fund's investments have been classified, the Fund has assessed factors including, but not limited to, price transparency, the ability to redeem at NAV at the measurement date and the existence or absence of certain restrictions at the measurement date.

US GAAP provides guidance in determining whether there has been a significant decrease in the volume and level of activity for an asset or liability when compared with normal market activity for

a. Portfolio Valuation (continued)

such asset or liability (or similar assets or liabilities). US GAAP also provides guidance on identifying circumstances that indicate a transaction with regards to such an asset or liability is not orderly. In its consideration, the Fund must consider inputs and valuation techniques used for each class of assets and liabilities. Judgment is used to determine the appropriate classes of assets and liabilities for which disclosures about fair value measurements are provided. Fair value measurement disclosures for each class of assets and liabilities require greater disaggregation than the Fund's line items in the Statement of Assets, Liabilities and Members' Capital.

The following is a summary of the investment strategies and any restrictions on the liquidity provisions of the investments in Investment Funds held by the Fund as of June 30, 2023. Investment Funds with no current redemption restrictions may be subject to future gates, lock-up provisions or other restrictions, in accordance with their offering documents. The Fund had no unfunded capital commitments as of June 30, 2023. The Fund used the following categories to classify its Investment Funds:

The Investment Funds in the equity hedged strategy (total fair value of \$79,694,614) generally utilize fundamental analysis to invest in publicly traded equities through both long and short positions seeking to capture perceived security mispricing. Portfolio construction is driven primarily by bottom-up fundamental research; top-down analysis may also be applied. As of June 30, 2023, the Investment Funds in the equity hedged strategy had \$39,285,002, representing 49% of the value of the investments in this category, subject to investor level gates and/or lock-ups. Included in this amount is \$12,707,597, representing 16% of the value of the investments in this category, that cannot be redeemed in full because the investment includes restrictions that do not allow for redemptions in the first 12-24 months after acquisition. The remaining restriction period for these investment ranges from 2-13 months at June 30, 2023. Investment Funds representing less than 1% of the value of investments in this category are held in side pockets or in liquidation; therefore, the redemption notice period is no longer effective for these investments and the liquidation of assets is uncertain.

The Investment Fund in the multi-strategy strategy (total fair value of \$5,149,002) invests in both long and short, equity and debt strategies that are primarily in U.S. based securities. The management of this Investment Fund seeks arbitrage opportunities, distressed securities, corporate restructures and hedges established in equities, convertible securities, options, warrants, rights, forward contracts, futures, trade claims, credit default swaps and other derivatives, real estate and other financial instruments. As of June 30, 2023, the Investment Fund in the multi-strategy strategy had \$1,985,455, representing 39% of the value of the investment in this category, subject to investor level gates.

June 30, 2023

2. Significant Accounting Policies (continued)

a. Portfolio Valuation (continued)

The investments within the scope of ASC 820, for which fair value is measured using NAV as a practical expedient, should not be categorized within the fair value hierarchy. The total fair value of the investments in Investment Funds valued using NAV as a practical expedient is \$84,843,616 and is therefore excluded from the fair value hierarchy. Additional disclosures, including liquidity terms and conditions of the underlying investments, are included in the Schedule of Portfolio Investments.

The three levels of the fair value hierarchy are as follows:

Level 1— quoted prices in active markets for identical investments

Level 2— inputs to the valuation methodology include quotes for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument

Level 3— inputs to the valuation methodology include significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The NAV of the Fund is determined by the Fund's administrator, under the oversight of the Adviser, as of the close of business at the end of any fiscal period in accordance with the valuation principles set forth below or as may be determined from time to time pursuant to policies established by the Board. The Fund's investments in Investment Funds are subject to the terms and conditions of the respective operating agreements and offering memorandums, as appropriate. The Adviser has adopted procedures pursuant to ASC 820 in which the Fund values its investments in Investment Funds at fair value. Fair value is generally determined utilizing NAVs supplied by, or on behalf of, the Investment Funds' Investment Managers, which are net of management and incentive fees charged by the Investment Funds. NAVs received by, or on behalf of, the Investment Funds' Investment Managers are based on the fair value of the Investment Funds' underlying investments in accordance with the policies established by the Investment Funds. Because of the inherent uncertainty of valuation, the value of the Fund's investments in the Investment Funds may differ significantly from the value that would have been used had a ready market been available. See Schedule of Portfolio Investments for further information.

The fair value relating to certain underlying investments of these Investment Funds, for which there is no ready market, has been estimated by the respective Investment Fund's Investment Manager and is based upon available information in the absence of readily ascertainable fair values and does not necessarily represent amounts that might ultimately be realized. Due to the inherent uncertainty of valuation, those estimated fair values may differ significantly from the values that would have been used had a ready market for the investments existed. These differences could be material.

June 30, 2023

2. Significant Accounting Policies (continued)

a. Portfolio Valuation (continued)

It is unknown, on an aggregate basis, whether the Investment Funds held any investments whereby the Fund's proportionate share exceeded 5% of the Fund's members' capital at June 30, 2023.

The fair value of the Fund's assets and liabilities which qualify as financial instruments approximates the carrying amounts presented in the Statement of Assets, Liabilities and Members' Capital.

b. Investment Transactions and Income Recognition

The Fund accounts for realized gains and losses from Investment Fund transactions based on the pro-rata ratio of the fair value and cost of the underlying investment at the date of redemption. Interest income is recorded on the accrual basis.

c. Fund Expenses

The Fund bears all expenses incurred in its business, including, but not limited to, the following: all costs and expenses related to portfolio transactions and positions for the Fund's account; legal fees; accounting and auditing fees; custodial fees; costs of computing the Fund's NAV; costs of insurance; registration expenses; interest expense; due diligence, including travel and related expenses; expenses of meetings of the Board; all costs with respect to communications to Members; and other types of expenses approved by the Board. Expenses are recorded on the accrual basis.

d. Income Taxes

The Fund has reclassified \$1,138,269 and \$3,530,377 from accumulated net investment loss and accumulated net realized gain from investments in Investment Funds, respectively, to net capital contributions during the six month period ended June 30, 2023. The reclassification was to reflect, as an adjustment to net contributions, the amount of estimated taxable income or loss that has been allocated to the Fund's Members as of June 30, 2023 and had no effect on members' capital.

The Fund files income tax returns in the U.S. federal jurisdiction and applicable states. The Adviser has analyzed the Fund's tax positions taken on its federal and state income tax returns for all open tax years, and has concluded that no provision for federal or state income tax is required in the Fund's financial statements. The Fund's federal and state income tax returns for tax years for which the applicable statutes of limitations have not expired are subject to examination by the Internal Revenue Service and state departments of revenue. The Fund will recognize interest and penalties, if any, related to unrecognized tax benefits as income tax expense in the Statement of Operations. d. Income Taxes (continued)

Adviser does not believe there are positions for which it is reasonably likely that the total amounts of unrecognized tax liability will significantly change within 12 months of the reporting date.

The cost of investments for federal income tax purposes is adjusted for items of taxable income allocated to the Fund from the Investment Funds. The allocated taxable income is reported to the Fund by the Investment Funds' tax reports. The tax basis of investments for 2023 will not be finalized by the Fund until after the fiscal year end.

Each Member is individually required to report on its own tax return its distributive share of the Fund's taxable income or loss.

e. Cash and Cash Equivalents

Cash consists of monies held at The Bank of New York Mellon. Such cash, at times, may exceed federally insured limits. Cash equivalents consist of short-term investments that have maturities of three months or less at the date of purchase. The Fund has not experienced any losses in such accounts and the Adviser does not believe the Fund is exposed to any significant credit risk on such accounts. At June 30, 2023, the Fund held an investment in UBS Select Treasury Institutional Fund with a fair value of \$2,630,126, which is included in cash and cash equivalents in the Statement of Assets, Liabilities and Members' Capital and is considered to be a Level 1 investment in accordance with ASC 820. The Fund has not experienced any losses in such accounts and does not believe it is exposed to any significant credit risk on such accounts. There were no restricted cash balances held as of June 30, 2023.

f. Use of Estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in members' capital from operations during the reporting period. Actual results could differ from those estimates. Because of the uncertainty of valuation, such estimates may differ significantly from values that would have been used had a ready market existed, and the differences could be material.

Currently, UBS FSI acts as the sole distributor of the Fund's interests, and bears its own costs associated with its activities as distributor. Sales loads, if any, charged on contributions are debited against the contribution amounts, to arrive at a net subscription amount. The sales load does not constitute assets of the Fund.

The net increase or decrease in members' capital derived from operations (net income or loss) is allocated to the capital accounts of all Members on a pro-rata basis, other than the Investment Management Fee and the Management Fee which are similarly allocated to all Members other than the Adviser as described above.

Each Director of the Fund receives an annual retainer of \$12,500 plus a fee for each meeting attended. The Chair of the Board and the Chair of the Audit Committee of the Board each receive an additional annual retainer in the amount of \$20,000. The Adviser negotiates the commitment amount with the counterparty based on the amount each fund will be expected to borrow at a given time. The Commitment Fee is allocated to each fund based on the sub-limit borrowing amount which is disclosed within the Credit Agreement.
